Who we are?

Petro Kavosh Parsis (Pekasis) Company was founded as a regional supplier & Contractor, we have been a leader in the, petrochemical, refining, maritime, onshore & offshore Equipment supply.

We are able to self-perform most required activities, but also have the capability and experience to outsource many unique or specialized activities to our network of qualified subcontractors. It is often the smartest and most cost-effective solution for managing maintenance and small project work across a broad geographical area.

The oil and gas industry is constantly evolving to meet new economic and environmental challenges.

Our people ensure they utilize engineering methodologies that take advantage of the latest technology to profitably produce, transport and distribute these products.

We now work closely with several big manufacturer companies specialized in equipment for Refining, petrochemical and marine port facilities projects. Each company was carefully chosen for their reputation, technical capability, service and approach to the customer and business ethics.

We are a supplier that has established a regional and international reputation for providing equipment by utilizing our professional partners & manufacturer all around the world.

We have strong relationship with oil & gas industries and support their projects with our own smart employee at our sales & commercial department & also our expert executive team.

We offer the competitive pricing, highest technology and quality, best delivery and after sales services for all oil & gas products.

Good working relationship with all of our principals has been built on a foundation of trust, reliability and closely mirrored business philosophy.

We offer a unique set of pipeline services unmatched anywhere in the oil & gas industry. We can provide design, engineering management, pipeline construction, integrity service, subcontractor management, and Pekasis resource management.

Vision

To become the global oil and gas specialist contractor company.

To be unique in the refinery, pipeline and special facilities by competitive offering and high quality services to the international customers.

To be achieved improving revenue in 2022 through increasing domestic and international market share in the fields of oil, gas and petrochemical.

It's our aim to provide the absolute best in quality professional Solutions for first choice of our client and consultants by providing world-class services to our all customers at all intensity of their need in next few years.

Serve our each customer in a way they are our group member. Offer them best service using experience, latest technology and personnel attention on each requirements with best recommendations & honest efforts.

Deliver excellence in every aspect of our business.

Understand the needs of our Customers and match that need with the right product from the right Supplier at the right time – every time.

Believe that our partner & manufacturer produce the highest quality maritime & offshore products and we are honored to market these products throughout the world.

Strive to build long-term relationships with Customers and Suppliers based on mutual trust and respect.

We are a reliable source of timely information that is useful to our Customers and Suppliers.

Mission

We believe that we are successful only when our Customers and Suppliers are successful.

To provide high quality product for our client & become most unique and accepted brand in our country and promoting our services & products.

To provide high quality products to customers and explore new markets to promote sales of the Company.

Our success is powered by ideas and ideas come from all kinds of people.

Focused on Customer satisfaction.

Application of modern technology to enhance productivity.

Supervising the observance of safety, health and environment principles in operational regions as well as installations & commissioning.

Experienced professionals collaborating to provide top quality services and management.

Promotion of technical know-how and expertise of the personnel involved in Pekasis.

Designing, planning, implementing, monitoring and construction of oil & gas projects.

Continuously supervising the planning and implementation of operational projects.
